# Raftsman's Journal.

CLEARFIELD, PA., JUNE 8, 1870.

Wayne M'Veigh Esq., has been nominated by the President to be Minister Resident at Constantinople (Turkey), in place of Hon. E. Joy Morris.

From the Falls City, Nebraska, Journal, we learn that Frank Barrett, Esq., formerly of this place, has taken editorial charge of the Rulo Register, a Democratic paper. Success to you, Frank.

Dr. Schoeppe, it is pretty certain, will not be granted a new trial, but it is pretty generally believed that Governor Geary will not order his execution until the Legislature reassembles and has a chance to perfeet that which its former action sought to accomplish.

The postoffice at Alexandria, Virginia, is under seizure, while a special agent is investigating various charges against the-Postmaster and his clerks, one being intemplrance and neglect of business. When the agent took possession of the office, he found a quantity of letters in the basement, which had been opened, some of then seven or eight years old.

A late Texas paper says a band of Indians a few days ago approached within a short distance of the town of Lampasas. A company of the Fourth Cavalry went out to meet them, under command of Major Russell. The company was divided into two detachments, one of which met the Indians, and in the fight Major Russell was mortally wounded. The detachment met with some

While we sympathize with the starving Fenians huddled along the Canadian borders, in prison and out, we cannot see any good reason for the interference of our Government in their behalf. Not only have their misfortunes resulted from making war on a people with whom we are at peace, but they have violated the law of the land of their adoption to which they now appeal for assistance and protection. Really, the Fenian idea of justice and right is, to say the least, a little mixed.

The rebel element in Louisana is terribly excited over the proposition of Mr. Conway, Superintendent of Education, to put the new school bill into operation. It provides of borough, township, &c. for the establishment of public schools in every parish throughout the State. The rebel newspapers are prating loudly about having their "old system" of education supplanted by "carpet-bag" legislation, but when it is stated that prior to the war there was not a single free school in the State, the "old system" will not be deeply mourned by the friends of progress.

The Fenians have returned home disgusted, leaving only their leaders behind them. These are in the hands of the United States authorities, and to all appearance are there like'y to remain for some time. The Govern ment, to the surprise of many, does not look upon the raid as a joke or ho liday excursion and prosecutes the leaders with rigor, Though this may be greatly to the discomfort of the leaders, it is indirectly for the benefit of the masses of Fenians, who will thus have fewer Head Centers and Treasurers to deceive them in the future.

The New York Herald characterizes the late election in the State of New York, so far as affording a test of the strength of parties as "a Democratic victory which signifies nothing." From official returns from most of the counties, and generally accepted estimates from the rest, it appears that the whole vote cast will not exceed-430,000, against 829,776 cast in 1868, showing a deficiency of 419,776, or about one half of the vote of the State, which loss the stay at-home Republicans count two hundred and fifty thousand and the Democrats one hundred and eighty thousand.

The Washington Chronicle, in referring to this wholesale murder, says:

"Such a massacre, surpassing the horrors of St. Bartholomew, is a blot on the age and a disgrace on modern civilization. That it should have been perpetrated by people calling themselves Christians is as humiliating as it is amazing. Civilized nations should lift up a loud and indignant protest against this beastly outrage upon humani-

Our own Government, we are glad to say, has not been slow to manifest in unmistakable terms its abhorence of these outrages. S. Wolf, Esq., having yesterday, Thursday, received telegrams from New York, Louisville, and Chicago, asking his assistance to prevent the continuance of the outrages in Roumelia, called upon the Secretary of State, who ordered at once the appointment of Adolphe Buchner, Esq., as Consul General at Bucharest, Roumelia. Mr. Buchner is an Israelite, and his appointment is as positive action as the Executive Department of the Government could take to express its abhorrence of the massacre.

The subject of this persecution and massacre has already been introduced into both Houses of Congress. This prompt action on the part of the American Congress will have a powerful effect on the whole civilized world in condemning this horrible butchery of defenceless and inoffensive people.

Democracy in the Southern States is discovered to be as unregenerate as ever. A late experience at Richmond may be accepted as pregnant with instruction for their Northern friends who insist upon an immediate and sweeping amnesty for past political crimes. The municipal election in that city resulted in a clear majority for the Republican ticket. The Commissioners, with whom lay the duty of summing up the returns, happen to be all Democrats. Beaten at the polls, what was more natural or easy for Democratic officers than to ignore the popular choice, proceeding coolly to elect their own favorites by the familiar method of doctoring the ballots. But even a Democrat won't stand too much of that sort of thing in Virginia, and the Whig, an able journal of the opposition, protests against these illegal proceedings, denouncing them as without a shadow of authority. The minority ticket thus electioneered into place is declared "not to be worth the paper it is written on, and should be universally repudiated." We commend the honest candor of this Virginia Democrat, as an example for the Democracy of our Somerset, or Westmoreland, or Philadelphia districts.-Pittsburgh Gazette.

HOME NEWSPAPERS. - We have on mo than one occasion given our reasons why it is not only the paramount duty of every community to give a willing and substantial support to its local newspapers, but also why it is the best policy. The New York Tribune gives the following sensible and comprehensive views on this subject :

Nothing is more common than to hear copie talk of what they pay newspapers for advertising, &c., as so much given in charity. Newspapers by enhancing the value of property in their neighborhood, and arrested as Fenians and sent to prison giving the localities in which they are published a reputation abroad benefit all such, particularly if they are merchants or realestate owners, thrice the amount yearly of the meagresum they pay for their support. Besides every public spirited citizen has a laudable pride in having a paper of which he is not ashamed, even though he should pick it up in New York or Washington. A good looking, thriving sheet helps property, gives character to the locality, and in many respects is a desirable public conven-If from any cause the matter in the local or editorial columns should not be up to your standard, do not east it aside and prosouce it good for nothing, until satisfied that there has been no more labor bestowed upon it than is paid for.
